**Date**  
**14<sup>th</sup> Nov 2024**

**Patron**

*Prof. Debabrata Basu*  
*Vice-Chancellor, UBKV*

**Chairman**

**Prof. (Dr.) Ashok Choudhury,**  
**Directorate of Research, UBKV**

**Organizing secretary**

**Dr. Rupsanatan Mondal,** Assistant Professor,  
UBKV

**Dr. Avijit Kundu,** Assistant Professor, UBKV

**Organizing committee**

Mrs. Shayani Das Laha , Ms. Subhra Chakraborty,  
Mr. Subir Dutta, Mr. Vivekananda Behera, Ms. T  
Manogna, B. Monika,

**About the program**

Come to our informative webinar on plant genetic resources and germplasm conservation. Scholars, scientists, researchers, students and farmers come together for this conference to discuss important issues related to maintaining plant genetic diversity. With an emphasis on both edible and ornamental crops, participants will delve into the difficulties and viable solutions for gathering, preserving, and using plant genetic resources globally. Discover novel strategies for preserving genetic features and endangered plant species, which will secure plant biodiversity and agriculture in the future. Don't pass up this chance to make a difference in the important field of managing and preserving germplasm.

**Important Note:**

TA will provided only for farmers

Farmers can apply for Plant Genome Saviour Awards

7001506381 / 9875598916

**Poster/ Oral Presentation**

We invite participants to present their posters during the workshop. The poster should be related with the themes of the Conference. The poster size should be 3x4 feet.

**Awards for Best Oral, Poster presentation and essay writing**

**Themes of The Workshop**

1. Crop Improvement

2. Plant Protection

3. Horticulture/Medicinal plants

**Essay Writing Competition**

We invite farmers and students to write an essay on the Topic “**Indigenous Technical Knowledge (ITK)** of farmers” during the workshop.. Selected ones will be awarded

**Eligibility**

- M.Sc. Students
- PhD, Research Scholars
- Faculties of Colleges/Universities
- Farmers

**Registration**
